

HHSC Powerboat Courses 2012

PLEASE READ NOTES BELOW

The club will be running the following introduction to power boating courses in the forthcoming year (times currently provisional):

Powerboat level 1 – This course will provide a practical introduction to boat handling skills. This course is suitable for a newcomer to power boating.

Saturday 28th January 9.00 Full day

Sunday 29th January 9.00 Full day (may revise)

Powerboat level 2 – The course provides the skills and background knowledge needed by a competent powerboat driver and is the basis of the International Certificate of Competence. As a club we would normally expect one year to elapse between PB 1 and PB 2.

Friday 10th February introduction/ theory

Saturday 11th February 9.00 Full day

Sunday 12th February 9.00 Full day

Hill Head Sailing Club only provides power boating courses to enable the club to provide crews for its safety boats. As such the courses are run at near to cost price (£40 plus certificate/ log book/ text book charges). There is an expectation that those who enroll on the courses also assist with supporting Hill Head SC's race or training programs.

Numbers on the courses are be strictly limited by the number of instructors / powerboats available. There will consequently be a reserve list for each course. As our powerboat courses are run to provide crews for our safety boats preference will be given to those with sailing ability irrespective of whether signed on the main or reserve list. **Therefore those signed up will only be accepted if they have proven sailing ability at Hill Head Sailing Club unless space available.**

Payment can be made on the day of the course. However the course fee will have to be paid for cancelations after Saturday lunchtime of the weekend prior to the course unless a reserve is available to fill the place. The person attending the course will be the person signed on the list; substitutions cannot be accepted unless there is no one on the reserve list.
